

PROline

Fabric Pergolas Pro 100 / Pro 150 / Pro Mega

LAMDA

SHADING SYSTEMS MANUFACTURER

Shade on demand.

Pro 100

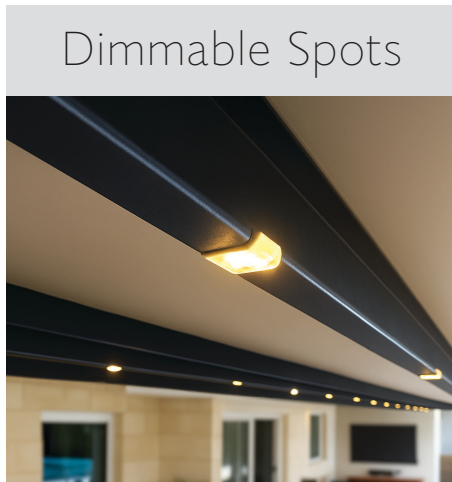

Proline pergolas offer total sunlight blockout when closed and an unobstructed sky view when fully retracted. The Pro100 model features a distinctive yet delicate design, making it an ideal choice for residential spaces, courtyards, and stylish outdoor living areas. Installation with inclination on wall or fascia ensures optimal rain drainage management, while the motorized movement of the fabric provides full coverage at the touch of a button. Enjoy shade, comfort and style – all with a single movement.

Fabric Pergolas

Improve
your commercial
space.

Pro 150

Offering a bolder, more robust appearance while preserving a sleek and minimalist design, this model stands out as an efficient fabric pergola system, perfectly suited for shading larger areas. Like every Proline product, it can be equipped with integrated LED spot lighting to create a bright and welcoming atmosphere at any time of day. It is a versatile and desirable solution for commercial spaces looking to expand and elevate their outdoor areas and beyond.

Pro Mega

This type of pergola can cover larger spaces. With a maximum coverage of up to 1615 sq. feet, the shade structure achieves a robust and harmonious form. Perfect for installment on top of pre-existent wooden or metal supports, ProMega expands your outdoor area like no other system.

Colours

Standard Colours

Any Ral. No restriction

Marine Painting

Durable coating for maximum protection & long-lasting performance. Ideal for coastal areas.

Lightning

These small LED spots fit perfectly into the pergola bars, providing up to 320 EU lumens of brightness each. They are also dimmable, allowing you to create the ideal atmosphere for any occasion.

3000K

4000K

6000K

Front parapet

Aluminum support and gutter for rain management. Clear cut joints. Minimal and simple

Panel parapet

Elevated gutter with panels to conceal the pergola rails and with an elegant appearance

Top board

Metallic panel for additional protection of the fabric when retracted ensures elegant appearance and long-lasting performance. Ideal for damp-proofing pergola systems installed on facades.

Autonomous support construction

Complete peripheral support with beams for self-standing Proline pergola systems. Designed with clean joints and a minimal yet robust aesthetic, it offers both structural integrity and provides a solution when other support elements are absent, perfect for open spaces.

Hanging Pro

A fresh take on structural support for the Pro100 and Pro150 models. Experience a unique feeling of freedom, thanks to the uninterrupted front and skyward views.

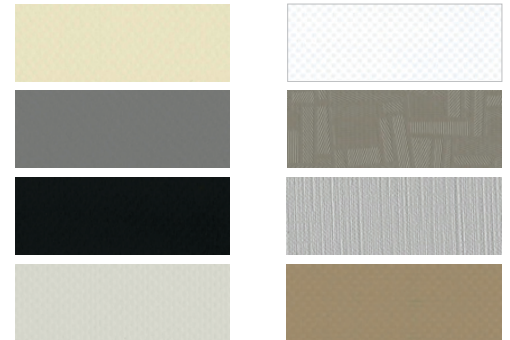

Curved

Its elliptical design stands out, adding a touch of architectural elegance - ideal for more demanding projects that require both visual impact and refined sophistication.
