Bioclimatic

Bio LAMDA / Open Sky / Open Roof

Elevated outdoor living.

Bio Lamda

Crafted with aluminum profiles and equipped with rotating blades adjustable from 0 to 120 degrees, this bioclimatic pergola offers precise control over natural light and shade. Seamlessly compatible with vertical and glass enclosure systems, it creates a comfortable, private atmosphere tailored to your needs. The key advantage of its bioclimatic design is optimal airflow which delivers ventilation while maintaining effective sun protection, for a naturally pleasant environment beneath the structure. Ideal for both residential and

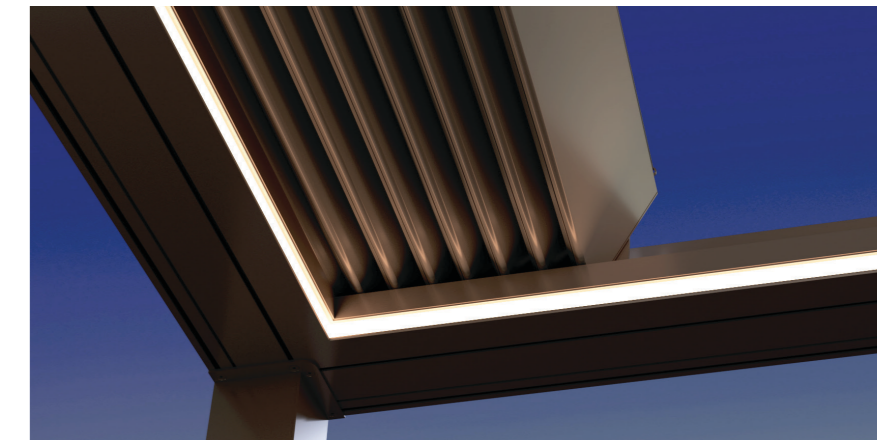

Open Sky

Enjoy instant shade control with a single movement. This bioclimatic pergola allows its blades to fully retract to one side, offering complete exposure to sunlight or total shade as desired. Designed with a stronger, more solid frame, it ensures reliable coverage while creating a cool, sheltered environment. The Open Sky and LAMDA models feature zero incline installation.

Open Sky at night

Peripheral dimmable LED tape provides customizable lighting to suit any mood or setting.

Open Roof. Same concept. Inclined installation.

Our bioclimatic models are supplied with 5.9x5.9 inches columns featuring concealed internal reinforcement bases, ensuring a clean appearance without visible fixing points or screws.
